

PROFESSIONAL SUMMARY

Seasoned QA professional with **12 years of expertise in software testing**, test strategy, and quality assurance leadership. Adept at driving high-quality software releases, leading small teams, and aligning testing initiatives with business goals. Proven ability to manage test execution, risk assessment, and defect management across complex enterprise applications, specializing in Salesforce Service Cloud and Agile methodologies, with a track record of seamless, customer-focused deliveries.

CORE COMPETENCIES

- **Test Strategy & Execution** – Crafting and executing strategies for functional, integration, regression, system, performance, and API testing aligned with business needs.
- **Salesforce Testing Expertise** – Specialized in Omni-Channel, Email-to-Case, Web-to-Case, case routing, workflows, dashboards, and reports, delivering seamless customer experiences.
- **UAT & Stakeholder Engagement** – Leading **User Acceptance Testing (UAT)**, collaborating with business SMEs, and engaging **stakeholders at all levels** to align testing with business objectives.
- **Defect Management & Risk Mitigation** – Detect, track, and resolve defects, ensuring compliance and delivering high-quality test documentation.
- **Backend & Data Validation** – Strong **SQL skills** for backend validation, test data management, and troubleshooting data integrity issues.
- **Agile & Test Leadership** – Lead small teams to optimize test execution and drive continuous improvement in Agile settings using JIRA/XRAY, Azure DevOps and Confluence.

TECHNICAL PROFICIENCY

- **Testing Tools:** JIRA/Zephyr, Azure DevOps, Postman, Rest Assured
- **Automation:** Selenium, Playwright (JavaScript/Java)
- **Databases & APIs:** SQL, RESTful Services
- **CRM Platforms:** Salesforce

WORK EXPERIENCE

Organization	Role	Duration
TTC Australia	Senior Consultant	July 2025 to current
NZ Post	Quality Engineer - Salesforce	May 2023 to July 2025
Accident Compensation Corporation (ACC)	Senior Test Analyst	April 2021 to May 2023
Jarden	Senior Test Analyst	Feb 2021 to April 2021
Waka Kotahi (NZTA)	Senior Test Analyst	July 2020 to Jan 2021
Auckland Airport	Senior Test Analyst	Aug 2019 to March 2020
Ministry for Primary Industries (MPI)	Senior Test Analyst	April 2019 to July 2019
Accident Compensation Corporation (ACC)	Test Analyst	March 2018 to April 2019
Vodafone New Zealand	Configuration Analyst	Sep 2017 to Dec 2017

EARLY CAREER

Organization	Role	Duration
Prolific Corporation Ltd	Senior Test Analyst - Salesforce	May 2014 to June 2016
IBM India	Application Developer - Salesforce	Aug 2013 to May 2014
Infosys	Senior systems engineer	Dec 2010 to Aug 2013

PROFESSIONAL EXPERIENCE

Senior Consultant, TTC, AU (NGM bank) • July 2025 - current

Key Responsibilities:

- Defined and implemented test strategy and test plans aligned with migration approaches (rehost, re platform, refactor, rebuild, replace) to ensure risk-based coverage.
- Designed and executed test scripts for migrated applications and workloads, reusing and adapting existing test assets where relevant.
- Coordinated with business users and stakeholders to facilitate UAT, ensuring migrated applications met functional and business requirements.
- Prepared and delivered test exit reports, execution reports, and defect metrics to provide clear visibility of testing outcomes and migration readiness.
- Managed end-to-end test execution and reporting, ensuring quality validation across multiple migration phases and smooth transition to Azure.

Quality Engineer, NZ Post, Wellington • May 2023 – July 2025

Key Responsibilities:

- Spearheaded test strategies for Salesforce Service Cloud, ensuring comprehensive validation of customer-facing features and delivering high-quality releases with zero critical defects.
- Authored and executed test plans, cases, and scripts for Salesforce Service Cloud and Omni Studio, tailoring testing to optimize Omni-Channel, Email-to-Case, and Web-to-Case functionalities.
- Directed role-based testing and case routing validation for Salesforce Service Cloud, guaranteeing seamless Omni-Channel performance and accurate case workflows.
- Led end-to-end and UAT testing in integrated environments, coordinating with stakeholders to ensure flawless Salesforce-driven releases.
- Oversaw functional, integration, and regression testing for Salesforce Service Cloud, aligning system performance with business requirements.
- Conducted API testing using Postman and Rest Assured, resolving regression issues to maintain robust Salesforce integrations and external system connectivity.
- Guided developers, administrators, and analysts as a Test Lead, refining testable requirements and enhancing code quality through actionable feedback.
- Facilitated cross-functional collaboration via Confluence, documenting Salesforce test strategies, API scenarios, and best practices to drive team alignment.
- Improved test documentation precision, reducing ambiguity and accelerating feedback cycles for Salesforce implementations.
- Championed Agile processes as Test Lead, leading sprint planning, backlog grooming, and retrospectives to integrate testing seamlessly with development timelines.

- Managed test planning, execution, and defect tracking in JIRA and Azure DevOps, upholding Agile workflows and ensuring on-time delivery of Salesforce releases.
- Directed bug triaging and daily cross-functional syncs, cutting issue resolution time through proactive leadership and coordination.
- Automated end-to-end Salesforce Service Cloud test scripts using Playwright with JavaScript, boosting test coverage and enhancing efficiency.

Senior Test Analyst, ACC, Wellington • April 2021 – May 2023

Key Responsibilities:

- Led the creation and execution of end-to-end test scripts for Oracle Cloud ERP's Procure to Pay and Contracts modules, ensuring seamless system functionality and zero downtime on deployment.
- Designed and executed test scripts for 15 Oracle ERP integrations with ACC applications, validating API performance and ensuring flawless data flow.
- Validated account statement transfers via Axway from Westpac for reconciliation through the lockbox system.
- Tested customer debt detail integrations with EOS, ensuring accurate data exchange via Axway.
- Verified physical mail generation workflows, confirming correct transmission of customer details through Axway.
- Tested invoice payment processing by validating payment file transfers to Westpac via Axway.
- Tested transfers of payment files from MFP to Westpac, ensuring secure and uninterrupted payment operations.
- Delivered regular status updates and progress reports, aligning stakeholders—Business Owners, SMEs, and technical teams—on project milestones.
- Developed quick reference guides and "How-to" documents, enhancing team efficiency with clear, actionable resources.
- Coordinated Business Acceptance Testing (BAT) with over 20 business users, driving smooth validation of processes and securing business sign-off.
- Aligned stakeholders—Business Owners, SMEs, Deloitte—through regular updates and collaboration, enhancing project cohesion.
- Shaped Agile workflows through active participation in backlog refinement, sprint planning, and retrospectives, boosting team performance.
- Spearheaded Show and Tell sessions across iterations, presenting test data to demonstrate development progress and align with business objectives.

Senior Test Analyst, Jarden, Auckland • Feb 2021 – April 2021

Key Responsibilities:

- Evaluated systems and integrations, defining test scope to ensure full coverage of critical functionalities and seamless system performance.
- Developed and executed end-to-end test cases, incorporating API validations, to deliver thorough functionality verification under tight deadlines.
- Managed defect resolution processes, coordinating with the team to address issues efficiently and providing stakeholders with clear, timely updates to keep projects on track.

Senior Test Analyst, Waka Kotahi (NZ Transport Agency), Auckland • July 2020– Jan 2021*Key Responsibilities:*

- Engaged in daily stand-ups, backlog refinement, sprint planning, and retrospectives, aligning testing efforts with project requirements and priorities.
- Crafted and executed detailed test cases, incorporating exploratory testing, to ensure thorough and reliable functionality validation.
- Tracked and resolved defects, delivering timely progress updates and working closely with the team to maintain seamless project delivery.

Senior Test Analyst, Auckland Airport, Auckland • Aug 2019– Mar 2020*Key Responsibilities:*

- Developed test plans and scripts from design documents, executing thorough system integration, end-to-end, and regression testing to ensure robust functionality.
- Conducted end-to-end testing of pre-security gates and performed cross-browser testing across multiple devices and mobile platforms (iOS and Android), ensuring a seamless user experience.

Senior Test Analyst, Ministry for Primary Industries, Wellington • Apr 2019– Jul 2019*Key Responsibilities:*

- Created test plans and scripts from design documents, conducting in-depth system integration, end-to-end, and regression testing to ensure system reliability.
- Verified web application functionality for animal imports into NZ, performing cross-browser testing across diverse devices and mobile browsers (iOS and Android) for consistent performance.
- Evaluated data warehouse updates for fisheries, producing detailed test exit reports to document outcomes and support decision-making.

Test Analyst, ACC New Zealand, Wellington • March 2018 – April 2019*Key Responsibilities:*

- Built test plans and scripts from design documents to guide robust testing efforts.
- Partnered with UAT and business teams to execute system integration, end-to-end, and regression testing for reliable outcomes.
- Constructed a Requirement Traceability Matrix to ensure full alignment of testing with project specifications.
- Assessed ACC call centre operations and campaigns (email, SMS, Voice) within Genesys, verifying seamless functionality.
- Conducted regression testing for Windows patching and the business levy refund portal, maintaining system stability.
- Compiled test results and crafted detailed exit reports to support project closure and stakeholder review.
